SUPERVISORS TO CALL ON GOVERNOR TODAY

A Board Meeting was Held Last Night in the Throne Room and Members Waded Through a Mass of Data.

After two hours' deliberation over county affairs last night in the Throne Room of the Capitol, the members of the Board of Supervisors found themselves floundering in a mass of data seemingly without head or tail to it. First of all the financial net had to be cracked. Territorial Auditor Fisher said that the County of Oahu could not get its entire six months' pro rata of funds in equal installments every month, as the Territory had to deduct \$125,000 from its total allowance, and this could not be done until all the taxes were in. That, of course, made a difference to the Supervisors, and it would make considerable difference in the estimates for monthly maintenance of the several departments.

Then there was a tangle over the maintenance of prisoners. Attorney Douthitt said that the new wing to the Territorial prison was the "County Jail," but Auditor Fisher said that it was merely a wing of the Territorial prison, intended for misdemeanor prisoners. The fact remained apparent to the Supervisors that the Territory was to get many departmental realizations, while, apparently, the county had to foot the bills.

In order to have some light thrown on some of these various knotty questions, the Supervisors, in a body, will call on the Governor this afternoon at 2 o'clock, and tonight will ask Superintendent Holloway what he will turn over to the county. The Attorney General will also be asked to explain some Territorial and County matters with which he is supposed to be perfectly familiar from the legal standpoint.

FISHER ANSWERS.

Auditor Fisher said he did not know exactly what was expected of him, but he was willing to aid the supervisors wherever possible. He asked for questions.

Mr. Adams wanted to know what it had cost to run the Police Department last month, and the Fire Department also. Mr. Fisher said he could get that by averaging statements made last year to the Legislature. He said he had drafted a statement as to receipts for the six months ending December 31, 1904. This would correspond to the first six months of the county's existence. He read the following statements:

Statement of the Taxes collected for the Island of Oahu for the six months ending December 31, 1904:

TALKING OF MONEY.

There would be a little over \$252,000 up to January 15, 1906. Mr. Fisher said it was better to take out the deductions from the total rather than by pro rata amounts each month. The county would have \$252,000, approximately, for its first six months. That would be all the county could get.

Mr. Fisher said the law reserved \$125,000 to come from the county, and the county would get what was left, at the end of the six months period.

Lucas asked what money was left over which could be applied to road work.

Mr. Fisher said there was money in the hands of the Treasurer. He did not know whether it was a territorial or county deposit. That could be decided when they drew upon the treasurer.

Mr. Trent said that since April 26 the Territorial Treasurer had been holding the road taxes for the county, amounting to about \$2300.

Lucas inquired whether there would be any road money to keep the men employed right along.

Fisher did not think the county could keep up the payment of road expenditures as fast as the Territory had. "I don't think the county can keep up the same lick," said Fisher.

The expenditures in the fifth district for the six months ending December 31, had been \$19,000, and in the fourth district, \$17,000, but other improvements in road extensions were going on at the same time, paid out of the loan fund.

"What would be our expenditures," asked Adams.

"I know the law provides for \$1665 per month for salaries of supervisors and other officers," was Fisher's reply. "The Police Department gets \$750, making \$19,000 a month."

Lucas thought \$7500 for the police was too much. The Chairman said it was proposed that the July expenses be as of June, so as to get started.

Moore asked if the 10 per cent. of the whole amount could be paid over monthly. Fisher said the law provided the county should have not less than 10 per cent. The Territorial officers under their bonds would not pay more, as the estimated taxes might be less.

Lucas was afraid there would be no money for the road department.

MR. TRENT INQUIRES.

Trent inquired as to the 10 per cent. of the estimated receipts. He thought the pro rata would be \$37,000 per month. That would be 60 per cent. in six months. He considered the 40 per cent. was to take care of the \$125,000 which the Territory gets out of the county's total receipts.

If that plan was carried on here, Kauai would have money to do business on, was Adams's comment. Adams thought this method of taking out the full limit of money to 60 per cent was the only way the county was going to do business.

Fisher said that \$377,000 was Oahu's total share.

"Where do you get your warrant for

the \$125,000?" asked the chair. The chair considered that Mr. Trent had arrived at a reasonable solution of the problem, which was really according to the law. Mr. Adams thought that the Territory would get its \$125,000 all right, despite any fear there might be of a falling off in taxes.

"I don't think you would get any of your warrants cashed until November," said Mr. Fisher.

Adams said that by taking 10 per cent for six months out of \$377,000 it would give the county \$37,000 a month. That would be 60 per cent. The Territory would retain the other 40 per cent. This might be \$150,000. That being the case, the Territory would have \$125,000 of that, leaving \$25,000 as a balance due the county.

The Police Department for the last six months drew \$43,000. J. A. Gilman presented a statement for the Fire Department which showed that \$3290 went for payrolls and \$875 for supplies, or about \$4000 a month. This, however, was on the "cut" basis of the special session.

Over \$3000 a month was spent on the garbage department, but there was revenue from that. The garbage crematory expense was included in the expenditure statement. \$1250 a month was the cost of maintaining the band, with a few incidentals.

COUNTY IS LUCKY.

Mr. Trent said the county was fortunate in starting in the last instead of the first six months of the year because there were more taxes coming in, so there would be "money to burn," so to speak. The county would start well enough on \$377,000, and then next year the taxes would be collected in May as well as in November.

The government electric light station in Nuuanu is run by the Territory, so Adams stated. The station would probably supply lights for the county offices.

Six hundred and sixty-six dollars a month was paid to the commission controlling Kapiolani Park. Fisher has made an item of \$1000 for the park. He thought that should be sufficient to keep Aala, Thomas and Emma square parks. Adams said \$500 a month would keep Kapiolani Park. Lucas suggested that the Rapid Transit might contribute to the maintenance of Kapiolani Park.

Fisher said that when the first county government was launched, he had delivered over to the counties complete sets of books. These he was again sending out to the counties today. These books were all right for the present government. The Territory had paid for them.

"Thanks," said Adams. The board then got down to regular business. A proposition was received from the Alex. Young building company to rent a portion of the second floor of the Young block for county offices. The committees on buildings and rules reported progress.

DOUTHITT'S EXPENSES.

Attorney Douthitt gave an estimate of his July expenses as follows: Assistant, \$175; stenographer, \$125; clerk, \$75; stationery, \$250; in all about \$650. Some of the expense would be permanent. That did not include his own salary. Afterward he would need a criminal and incidental fund.

The chair suggested that the county attorney was a deputy of the attorney general's department, and that as the legislature had left the incidental appropriation for the attorney general's department the same, some of the incidentals would be borne by the latter department.

Auditor Bicknell said he had not estimated his office expenses.

The chair suggested a finance committee could take up these matters with the various officers and present a statement in concrete form.

Adams wanted to know how much

space the County Attorney and other chair appointed Messrs. Adams, Moore officers desired. Mr. Douthitt thought and Lucas.

AS TO OAHU JAIL.

"Is the Board of Fire Commissioners in charge of the Fire Department, or are we?" asked Adams of Auditor Fisher.

Mr. Fisher was in a quandary, but he thought the law gave the authority to the commissioners, who are appointed by the Governor. However, the county had to pay the bill for the Fire Department. The Attorney thought the county law gave the Supervisors power to appoint the fire and all other commissioners.

Adams then referred to the maintenance of prisoners of the county. The Supervisors, he thought, would be required to meet this expense. He felt, however, that all prisoners now were territorial, and maintenance of prisoners by the county would be only of those convicted by the county after July 1.

Fisher said that none of the \$100,000 appropriated for the biennial period for maintenance of prisoners would be applied; only to territorial prisoners.

A LOT OF NEW THINGS

OLD HICKORY—Something new, odd, and dainty—decidedly artistic—in the way of porch and lawn furniture. Can be left out in all kinds of weather. It is a line of fashionable rustic furniture. It is made only of hickory, the strongest of American native woods, the bottoms and backs being plaited by hand and being of very strong inner hickory bark. For a den or lanai or even for your lawn there is nothing more odd than this.

NEW WEATHERED OAK SET—By the "Sonoma" we received a fine weathered oak dining-room set, consisting of a table, an odd buffet, a leaded glass china cabinet, two arm chairs, and eight regular dining chairs, these latter having green leather seats, which go well with the dark color of the oak.

We also received a very handsome golden quartered oak sideboard and a china cabinet—about as good as can be made in any furniture factory.

RUGS—New lot of all sizes of rugs, including fine Wilton's of all sizes.

WICKER CHAIRS And ROCKERS—A lot of cheap wicker work in the way of chairs and rockers is disposed of every year in Honolulu. Some of it lasts for a couple of months and some as long as a year, but the best on the market—that advertised in all the magazines—and the best of American make, made in American factories from the best Ceylon rattan, will last for years. We have a new lot of the American goods in chairs and rockers, of all patterns, shapes and sizes and at reasonable prices.

AND EVERYTHING ELSE NEEDED IN ANY CLASS OF HOUSE FURNISHING.
